

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, DC 20460

OFFICE OF CHEMICAL SAFETY  
AND POLLUTION PREVENTION

August 18, 2018

Georgia Anastasiou  
Agent for Surety Laboratories  
c/o Lewis & Harrison  
122 C Street, NW, Suite 505  
Washington, DC 20001

Subject: Notification per PRN 98-10 – Correct Typographical Errors  
Product Name: Surcide-P  
EPA Registration Number: 68868-1  
Application Date: 07/13/2018  
Decision Number: 543469

Dear Ms. Anastasiou:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Terria Northern at 703-347-0265 or via email at [northern.terria@epa.gov](mailto:northern.terria@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to read "Zeno Bain", written over a horizontal line.

for

Zeno Bain, Product Manager 33

# SURCIDÉ-P

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
DANGER**

Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin, or on clothing. Remove contaminated clothing and wash before reuse. Wear goggles or face shield and rubber gloves when handling this product. Wash thoroughly with soap and water after handling. Harmful or fatal if swallowed. Avoid contamination of food.

**ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to fish. Do not discharge effluent into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your Region Office of the Environmental Protection Agency.

**STORAGE AND DISPOSAL:**

This product must be kept under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container.

**PESTICIDE DISPOSAL:**

Pesticide spray mixture or waste water that cannot be used according to label instructions must be disposed of according to Federal or approved state procedures under Subtitle C of the Resource Conservation and Recovery Act.

**CONTAINER DISPOSAL:**

Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling or reconditioning if available, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

**GENERAL:**

Consult federal, state, or local disposal authorities for approved alternative procedures such as limited open burning.

**A BROAD SPECTRUM BACTERICIDE AND FUNGICIDE**

**FOR USE IN METAL WORKING FLUID AND OTHER PRESERVATIVE APPLICATIONS.**

**ACTIVE INGREDIENT:**

Hexahydro- 1,3,5 - Tris (2-hydroxyethyl) - s - triazine.....78.5%

**INERT INGREDIENTS:**.....21.5%

**KEEP OUT OF REACH OF CHILDREN**

**DANGER**

**FIRST AID**

<b>If In Eyes:</b>	· Hold eye open and rinse slowly and gently with water for 15 - 20 minutes. Remove contact lenses, if present, after 5 minutes, then continue rinsing. · Call a poison control center or a doctor for treatment advice.
<b>If on Skin or Clothing:</b>	· Take off contaminated clothing. · Rinse skin immediately with plenty of water for 15 - 20 minutes. · Call a poison control center or a doctor for treatment advice.
<b>If Swallowed:</b>	· Immediately call a poison control center or a doctor. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
<b>If Inhaled:</b>	· Move person to fresh air. · If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. · Call a poison control center or doctor for treatment advice.

Have the container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIAN:**

Probable mucosal damage may contraindicate the use of gastric lavage.

See additional precautionary statements on left panel.

**Directions for Use**

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

**METAL WORKING (Not for use in California)**

Surcide P is a microbicide designed for use in the manufacture of metal working fluids and/or for use in existing systems which use metal working fluids. Surcide P controls and/or inhibits the growth of bacteria and/or fungi in industrial products such as soluble emulsion, semi-synthetic and synthetic cutting fluids, hydraulic fluids and chemical coolants. Surcide P can be added with minor agitation directly to the concentrate or the make-up fluid. In both instances the final concentration of Surcide P should be 0.10 - 0.15%.

**ADDITION RATES CONCENTRATE**

Add Surcide P to the concentrate to result in 0.10-0.15% in the final use dilution (add 0.8 - 1.2 pints per 100 gallons of diluted fluid). This dilution provides 800-1100 ppm active.

**MAKE-UP FLUID (DILUTED FLUID)**

Add Surcide P directly to the make-up fluid (diluted fluid) to result in a concentration of 0.10 - 0.15% (add 0.8-1.2 pints per 100 gallons of diluted fluid). Redose every 4-6 weeks or when the system emits foul odors.

For best result drain and clean the system before adding fresh cutting fluid, or when the cutting fluid fails (split emulsion).

**COMMERCIAL AND INDUSTRIAL PRESERVATIVE**

Surcide P can be used for the preservation of Commercial, Household and Industrial and Institutional (I+I) products such as laundry detergents, dish detergents, fabric softeners, all-purpose cleaners, hard surface cleaners, heavy duty degreasers, floor finishes, silicone concentrates, emulsions and antifoams, window cleaners, printing inks, surfactant/detergent solutions (not intended to come in contact with food), glues and adhesives (for non-food use applications only), and starch suspensions used to make corrugated boxes (for non-food applications only). To control microbial spoilage, add Surcide P directly to the manufacturing batch with minor agitation to result in a final concentration of 0.05-0.20% (add 0.4-1.8 pints per 100 gallons of product). This dilution provides 400-1550ppm active Surcide P.

**ITEM # -----**

**EPA EST. 10508-PA-1**

**EPA REGISTRATION No. 68868-1**

**NET CONTENTS: 500 lbs.**

**IN CAN PAINT PRESERVATION (Not for use in California)**

Surcide P can be used for "In Can" paint preservation for cellulose thickened latex, acrylic latex, water based polyurethanes and other water based type paints. Surcide P can be used to increase the shelf life of these types of paints by controlling the growth of bacteria and/or fungi, which aid in the prevention of slime and odors, and the loss and/or gain in viscosity. To prevent microbial spoilage, add Surcide P directly to the manufacturing batch with minor agitation to result in a final concentration of 0.05-0.30%. (Add 0.4-2.4 pints per 100 gallons of product.) This provides 400-2350ppm active Surcide P.

**CONSTRUCTION MATERIAL PRESERVATIVE**

Surcide P can be used for the preservation of indoor-use type construction materials. Surcide P can be used to increase the shelf and use life of construction products by controlling the growth of bacteria and/or fungi in water based caulking, grouting, spackling compounds, joint compounds and fillers, glue, adhesives, wall paper pastes and strippers, basement masonry water proofers, and other products of this type intended for indoor applications.

To control microbial spoilage, add Surcide P directly to the manufacturing batch with minor agitation to result in a final concentration of 0.05-0.30% (add 0.4-2.4 pints per 100 gallons of product). This provides 400-2350ppm active Surcide P.

**CHAIN LUBRICANT PRESERVATIVE (Not for use in California)**

Surcide P can be used for the preservation of chain lubricants used on inanimate non-food contact surfaces. Surcide P controls and/or inhibits the growth of bacteria and/or fungi, aids in the prevention of slime formation and the prevention of odors in chain lubricants of natural, synthetic and semi-synthetic types. Add Surcide P to the concentrated chain lubricant to result in 0.05%-0.30% in the final use dilution. (Add 0.4-2.4 pints per 100 gallons of diluted tube.) This provides 400-2350ppm active Surcide P.

**FUEL OIL PRESERVATIVE (Not for use in California)**

Surcide P can be used for the preservation of distillate fuel oil during storage. It is intended for use at industrial, utility and commercial fuel oil sites. Surcide P can be used in fuel oil to control and/or inhibit the growth of bacteria and fungi which aid in the prevention of slime and odors.

Add Surcide P directly to the distillate fuel during transfer to result in a final concentration of 0.03-0.10%. (Add 0.4-1.25 gallons Surcide P per 1000 gallons of fuel oil.) This dilution provides 300-1000ppm active Surcide P.

**NOTIFICATION**

68868-1

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:
